DETAILED ACTION

Allowable Subject Matter

1. Claims 1, 3-10, and 12-16 are allowed.
2. The following is an examiner's statement of reasons for allowance: the prior art, individually or in combination, fails to disclose, teach or suggest wherein the controller calculates a first revolution speed of the internal combustion engine from a smoothed driving force, which is obtained by smoothing the driving force demand, and the discharge limit of the electric accumulator, and sets the calculated first revolution speed to a target revolution speed of the internal combustion engine at the specific drive point. The closest prior art, Hoshiya et al, discloses switching between multiple running modes and depending on a driving mode, setting a target revolution speed of an engine. Hoshiya does not teach or suggest calculating a first revolution speed of an engine from the smoothed driving force.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
